

Mission Readiness at a Glance: 312AS Power BI

Power BI lets the members of the 312th Airlift Squadron review all currencies, training, and accomplishments to verify Go/No-Go status before your next C-5M sortie. This user-friendly standard is accessible on both your iPad and desktop station.

One Tool. Two Platforms.

iPad

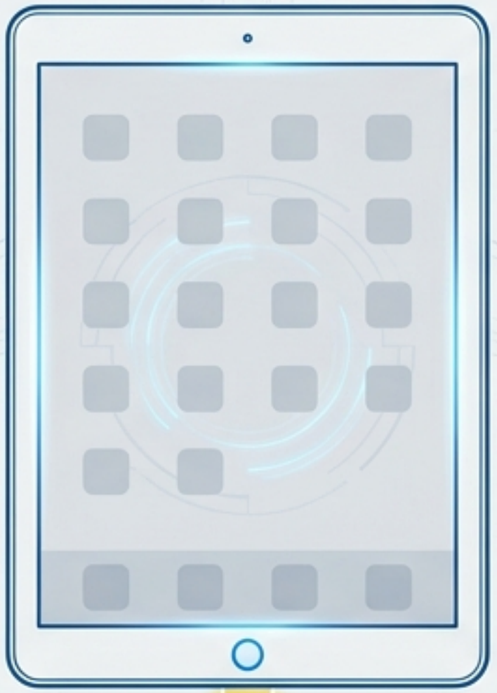

Desktop

CHOOSE YOUR PRE-FLIGHT PATH

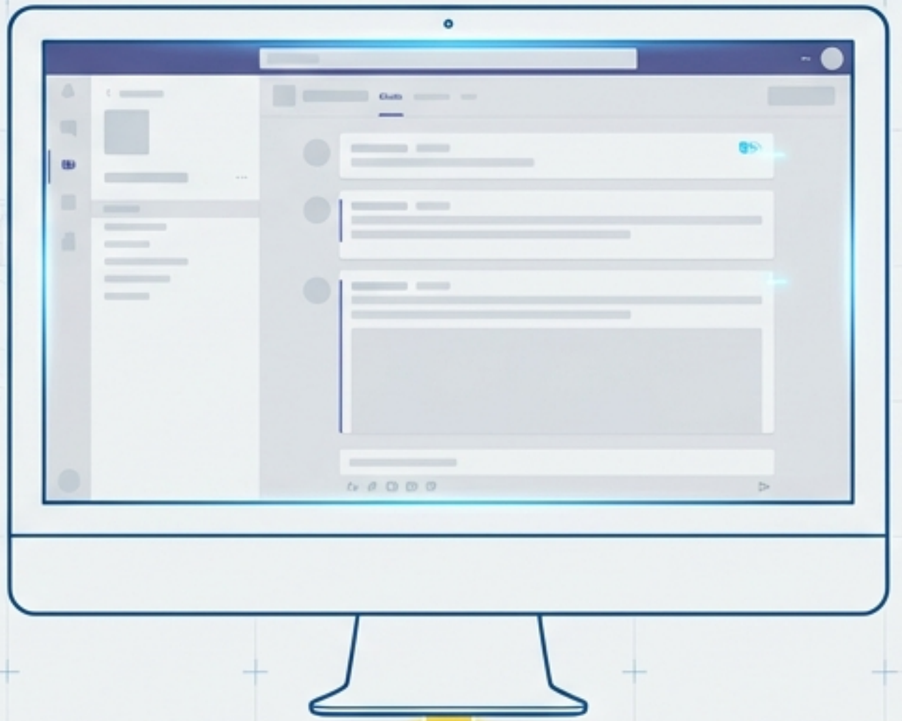

Accessing the 312AS Currency Report requires a slightly different approach depending on your device.
The next two slides cover the iPad pathway, followed by the Desktop instructions.

iPad Setup

312AS

CURRENCY REPORT v1.4

iPad Setup: App Installation

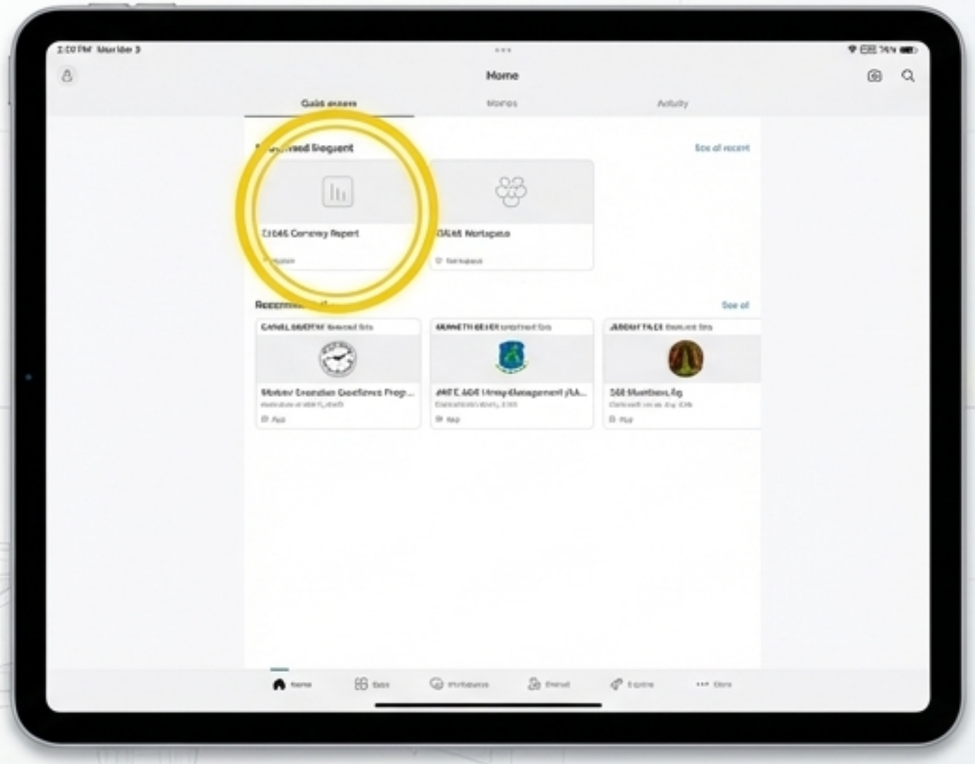

1 Locate and open the **Hub** application on your squadron iPad.

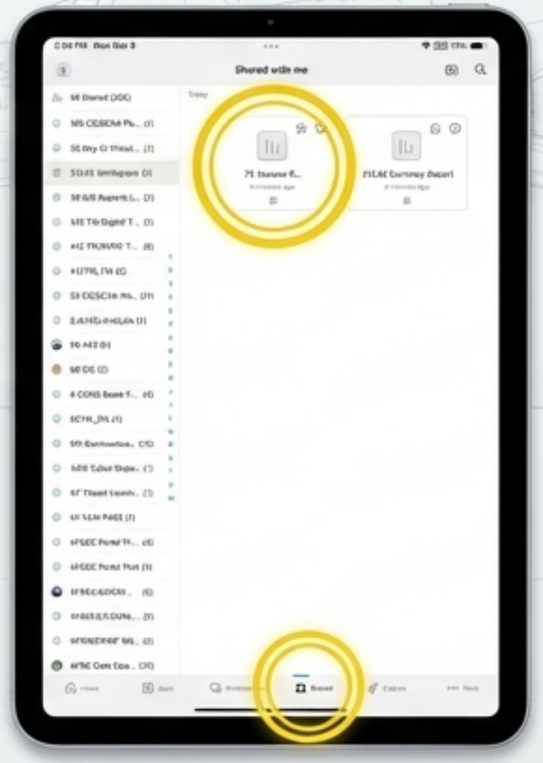

2 Search for and download **Microsoft Power BI**.

312AS

iPad Setup: Locating Your Currency

3 Open Power BI. The 312AS Currency Report will often appear automatically under your “Recent” tab.

4 If it does not appear: Tap the Shared tab at the bottom menu, select the 312AS Workspace, and tap the 312AS Currency Report.

Desktop Setup: Access via MS Teams

1. Open Microsoft TEAMS on your desktop station.

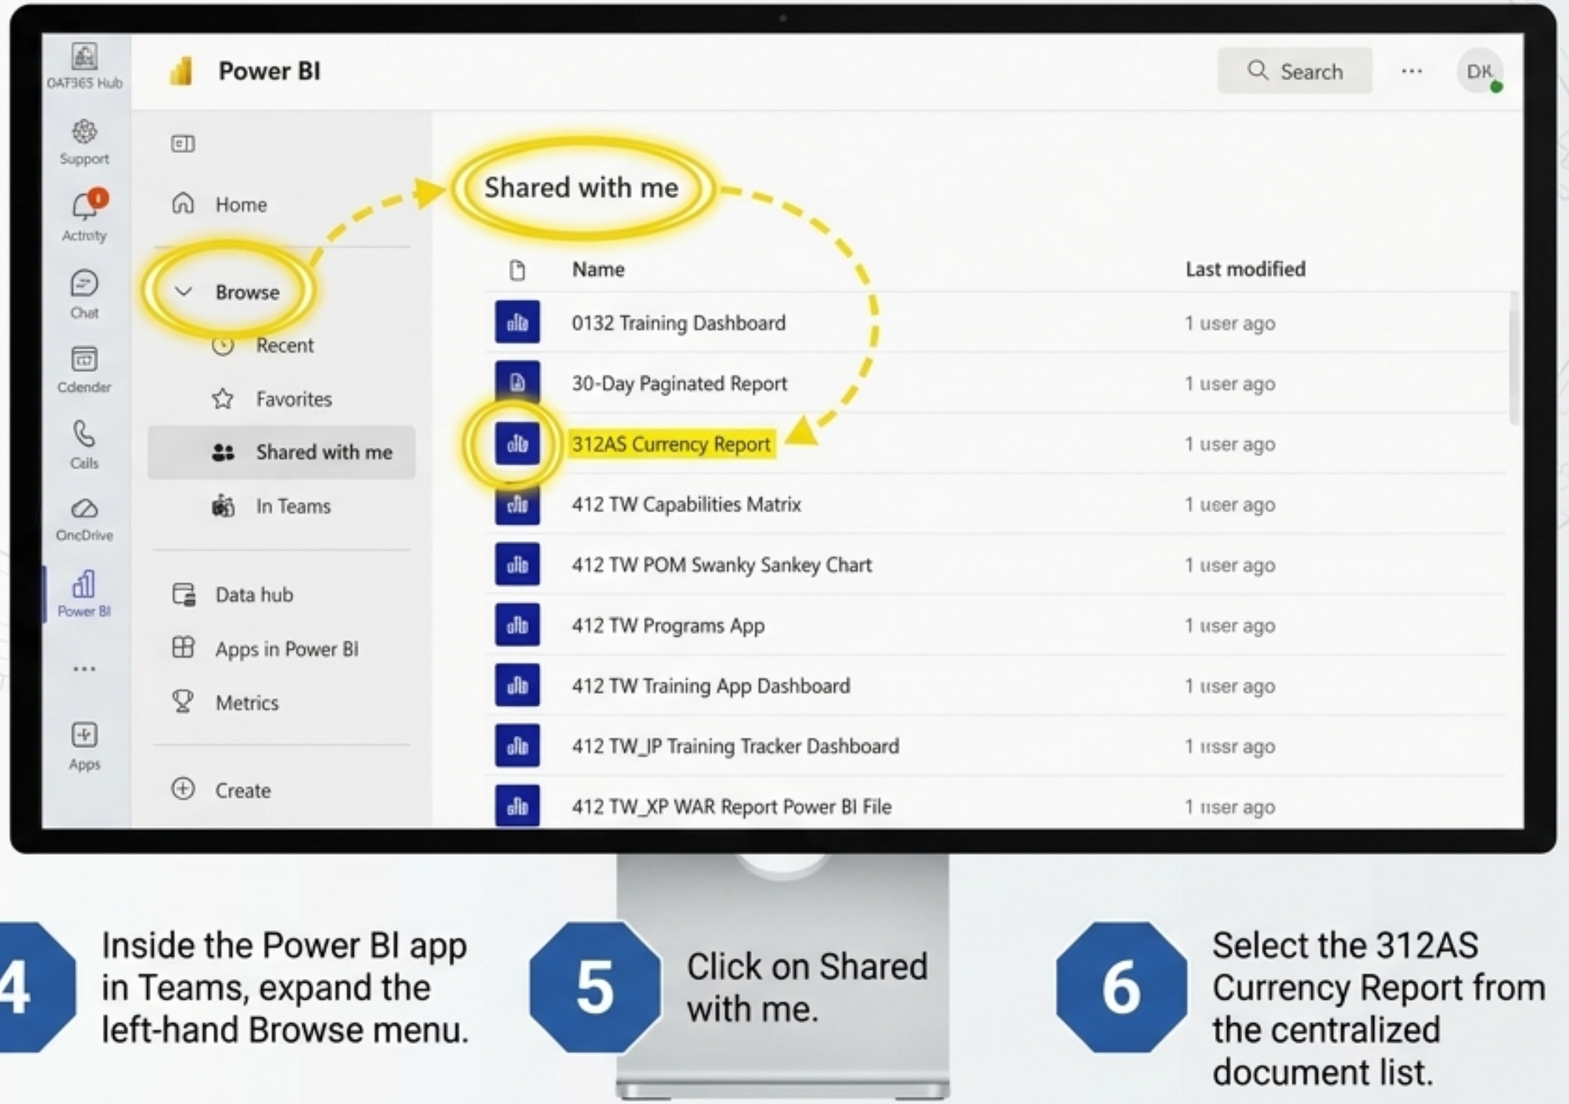

2. Navigate to the left-hand rail menu and click on **Apps**.

3. Search for, download, and open the Power BI app inside Teams.

AIR FORCE

Desktop Setup: Locating the Report

4 Inside the Power BI app in Teams, expand the left-hand Browse menu.

5 Click on Shared with me.

6 Select the 312AS Currency Report from the centralized document list.

AIR FORCE

Your Flightline Go/No-Go Status

Primary Readiness:
Your immediate flight clearance status.

The 312AS Currency Report distills your training data into an actionable dashboard. Check your availability code, track upcoming due dates, and instantly view any overdue items grounding you.

Immediate Action Required:
Grounding items that must be resolved before your next C-5M sortie.

Lapsed Currencies:
Specific tasks requiring requalification.

Individual Go/No-Go
