# Disclaimer

This is a basic How-To guide on creating DTS authorizations and Vouchers. This is not all inclusive and cannot show every situation.

The authorization is an ***ESTIMATE*** of how the trip is *planned* to go.

The voucher is the ***ACTUAL*** way the trip went—Ensure all receipts and *approved* orders (938) are uploaded in the expenses tab.

Always verify your DTS profile has your correct updated information to avoid any issues that may cause.

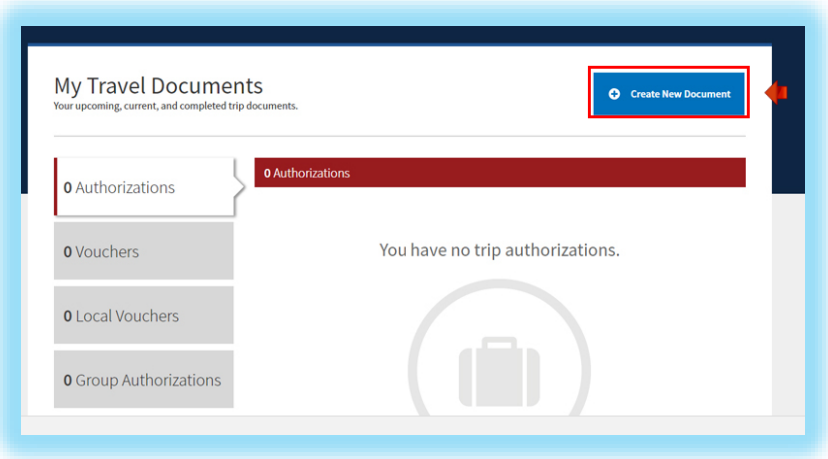

The DTS process is still new, so things are relative to change. Contact any full-time staff member or your DTS guru's if you need any assistance!

The Alternative Options section displays non-City Pair flights that may meet your mission needs.
The JTR says that City Pair flights are typically your best option for official travel. Therefore, if you select a non-City Pair airfare when a City Pair's available, DTS displays a warning message in a pop-up window. For this scenario, you'll select one of the City Pair options displayed near the top of the screen.
One thing to note – if you need assistance in booking your flights, you may use Request TMC Assistance at the bottom of the screen.

After you select a seat on all your outbound flights, DTS directs you to a screen where you can review your selections.
In addition to reviewing your airfare, you can also use this screen to:
Provide any Special Requests for this flight.
Add or select a Frequent Flyer Number from your DTS profile to associate with this flight.
Identify the Method of Payment for this airfare. Since you have a GTCC, DTS defaulted to Government Travel Charge Card (GTCC) as the payment option.

If you needed to adjust the pick-up time, you could do that, too. Leave it unchanged for this scenario. Since you plan to use the rental car as your transportation to the airport on the last day of the TDY, the DROP-OFF information doesn't need changing.
The JTR requires you to use a compact vehicle whenever possible, so that option is defaulted. If you need a different vehicle type for mission reasons, you could change it. For this scenario, leave it as is. DTS also allows you to search for one-way rentals and to indicate whether you intend to drive the rental car to the TDY location and back to your PDS. Leave those boxes unchecked for this scenario.
Your updated search criteria now match your rental car needs, so you're ready to search for a car.

## MISSED MEALS JUSTIFICATIONS

**NOTE**

*This form shows that use of Government quarters and/or mess or officers/enlisted open mess would have been detrimental to the mission. It cannot be used by members attending service schools at an installation of the uniformed services. Use DD Form 1351-5 to show non-availability of Government facilities or impracticality of use of available facilities.*

Duty examples of those which support non-use of available Government mess:

1. Pre or Post-flight duties and requirements.
2. Maintenance and security personnel required to remain with aircraft during meal periods.
3. Mandatory crew rest when meals would require interruption of at least 8 hours of sleep.

4. Air Crew or inspection team integrity when determined to be essential for mission accomplishment.

5. Time zone changes (members require orientation with local time schedules). This is limited to the first day after arrival at the TDY station. Otherwise, crew rest applies.
